DATASSIST PERSONAL DATA RETENTION AND DISPOSAL POLICY (PDPL)

A. PURPOSE

This Policy shall establish the maximum duration of personal data based on the purpose for which data is processed, and the procedures for deleting, destroying and anonymizing personal data for Datassist Bilgi ve Teknoloji A.Ş. ("Datassist") in its capacity as Data Controller as stipulated in the Regulations on the Deletion, Destruction or Anonymization of Personal Data issued by the Personal Data Protection Institute ("Regulations") pursuant to Articles 7 and 22 of the Personal Data Protection Law numbered 6698 ("PDPL") (*).

This Policy is binding on Datassist, all Datassist functions, and employees.

Datassist represents that this Policy was prepared in accordance with the Datassist Personal Data Processing Inventory.

(*) "PDPL" (Personal Data Protection Law numbered 6698 in Turkey) is equivalent to "GDPR" (EU General Data Protection Regulation).

B. DEFINITIONS

- **Disposal (or Purge):** The deletion, destruction or anonymization of Personal Data.
- **Data Subject:** The real person whose data is subject to processing.
- **Maximum Retention Time:** The maximum period for which Personal Data may be retained as appropriate to its purpose.
- **Recording Environment:** Any environment where processed Personal Data is stored, whether fully or partially automatic, or non-automated but part of a data recording system.
- **Deletion of Personal Data:** A process to make Personal Data inaccessible or unavailable to users.
- **Personal Data Processing Inventory ("Inventory"):** An inventory compiled by Data Controllers, showing the Personal Data processing activities, the maximum retention time of Personal Data depending on processing purpose, data category, recipients and data subjects, Personal Data which may be transferred to other countries, and measures to ensure data security.

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

	Document Code	Release Date	Revision No	Revision Date	Page No
	PL.501	28.06.2018	6	11.02.2026	1/10

- **Deletion of Personal Data:** A process to make Personal Data inaccessible or unavailable to users.
- **Destruction of Personal Data:** A wiping process to make Personal Data inaccessible, unavailable and irrecoverable to users.
- **Anonymization of personal data:** A process to prevent Personal Data from being associated with an identified or identifiable individual, including when matched with other data.
- **Periodical Disposal (or Purge):** A deletion, destruction or anonymization process that will be performed at regular intervals specified in the Personal Data retention and destruction policy when the circumstances allowing the processing of Personal Data as indicated in the law no longer exist.
- **On-Demand Disposal (or Purge):** A disposal process performed when a data subject applies to the Data Controller pursuant to Article 13 of the Law and requests the deletion or destruction of their Personal Data.
- **Data Registry:** A system where data is configured and stored based on various criteria.
- **Data Controller:** A real person or entity who determines the purposes and means for processing Personal Data, and is responsible for building and maintaining a data recording system.
- **Data Processor:** A real person or entity who processes Personal Data with the authorization of the Data Controller.
- **Board:** The Personal Data Protection Board.

C. PROCEDURES AND GUIDELINES

Unless a Board resolution to the contrary exists, the Data Controller shall select one of Personal Data deletion, destruction or anonymization as appropriate. Upon the data subject's request, reasons will be provided for selecting the respective method. The type of recording environment, data category and sensitivity will be considered when selecting a disposal method.

All procedures related to the deletion, destruction or anonymization of Personal Data shall be recorded, and such records shall be retained for at least three years irrespective of other statutory obligations.

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

D. REASONS FOR PERSONAL DATA RETENTION AND DISPOSAL

a. Reasons for Retention

Personal Data may be stored in accordance with the Personal Data processing conditions specified in Articles 5 and 6 of the Law and listed below.

1. Clearly specified in law
2. Explicit consent obtained from data subject
3. Requirement to process Personal Data of contract parties, provided that doing so is directly linked to the execution or implementation of a contract
4. Requirement for the Data Controller to fulfill their legal obligations
5. Made public by the data subject
6. Requirement to process Personal Data for establishing, exercising or protecting a right
7. Provided that the fundamental rights and freedoms of the data subject are not violated, requirement to process Personal Data for the legitimate interests of the Data Controller

b. Reasons for Disposal

If no other grounds for the lawful processing of Personal Data exist, Personal Data shall be disposed of in accordance with this Policy when one of the following conditions occurs:

1. Processing conditions in (1) above cease to exist
2. Data processing is in violation of law or equity
3. The purpose for processing Personal Data as explained in the Personal Data Processing Inventory ceases to exist
4. Datassist agrees to data subject's request for disposal
5. A legislative provision permitting data processing is annulled and/or amended
6. The contract permitting data processing is terminated or annulled
7. The maximum retention period determined by legislation and/or Datassist for Personal Data expires

E. RECORDING ENVIRONMENTS

Datassist stores Personal Data in the following recording environments:

1. DAKİKA: Payroll outsourcing software and data management platform (digital archive)
2. Software Development ticketing and management platform (digital archive)
3. Personal Virtual Desktop data management platform (digital archive)

** Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.*

*** Electronic Copy is a document whose output is not controlled.*

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

4. CRM data management platform (digital archive)
5. Process data management platform (digital archive)
6. Personal computers for functions with no contact with payroll operations
7. Printed document archives (physical archive)

F. TECHNICAL AND ADMINISTRATIVE MEASURES

a. Measures to ensure Personal Data is lawfully disposed

1. Creating automated disposal logs and retaining them for 3 years (III)
2. Use of automated warnings and reporting software for periodical disposal
3. Maintaining a Personal Data Processing Inventory
4. Creating Corporate Policies
5. Using PDPL-compliant wording in contracts
6. Confidentiality Agreements
7. Periodical and/or random audits within the institution
8. Risk analysis
9. Employment Contract, Disciplinary Policy (harmonizing with the Law)
10. Corporate Communication (Crisis Management, Board and Data Subject Notification Processes, Reputation Management etc.)
11. Training and Awareness Activities (Data Security and Law)
12. Notification to Data Controller Registry System (VERBIS)

b. Measures to ensure Personal Data is stored securely and to prevent unlawful processing or access to Personal Data

1. Datassist shall store Personal Data in a manner that only allows access by authorized persons and is protected from access by third parties through the use of secure software products.
2. Datassist shall perform annual penetration tests ("Pentest") to ensure that it fulfills the security criteria required for data protection and issue a report on the results of the test.
3. Datassist shall act in compliance with the ISO 27001:2014 Information Security Management System standard for the retention of Personal Data.
4. Datassist shall encrypt data using its own encryption algorithms during the transfer of data. Datassist shall be responsible for the management and supervision of the certification method used for encryption.

Datassist shall ensure that the processes for retention and disposal of Personal Data are compliant with PDPL provisions by means of its own internal audit department.

** Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.*

*** Electronic Copy is a document whose output is not controlled.*

G. RETENTION PERIODS AND DISPOSAL METHODS

- The following table shows data categories and explanations, maximum retention periods, legal grounds and disposal methods with regard to Personal Data processed by Datassist.

Data Category	Explanations	Retention Period (*)	Retention Reason / Legal Grounds	Disposal Method
PERSONAL Information	Employee identification and other information, documents and records that are required to be maintained and submitted to competent authorities by law	10 years after end of legal relationship	Clearly specified in law; explicit consent of subject; required for data controller to fulfill legal obligations	Deletion (keeping in an encrypted and inaccessible state)
WAGE Information	Cash and kind benefits provided to an employee in consideration for the employee's duties or services, side benefits, and legal or private deductions as indicated in the payroll	10 years after end of legal relationship	Clearly specified in law; explicit consent of subject; required for data controller to fulfill legal obligations	Deletion (keeping in an encrypted and inaccessible state)
ACTUAL WORK Information	The actual work time logged by an employee between entering and leaving the workplace, and any expenses incurred during work, recorded for the purposes of calculating net wage	Indefinite	Clearly specified in law; explicit consent of subject; required for data controller to fulfill legal obligations	-
AUTHORIZATION Information	Description of an employee's authorization to view/process certain management and communication platforms due to the employee's role and responsibility	2 years after changing roles and authorizations	Required for data controller to fulfill legal obligations; legitimate interest of data controller	Deletion (keeping in an encrypted and inaccessible state)
ACTIVE CUSTOMER Information	Contact information of actively served customers and records of documents and information pertaining to activities	10 years after end of legal relationship	Direct link to the execution of a contract; legitimate interest of data controller	Anonymization

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

PERSONAL DATA RETENTION DISPOSAL POLICY

Document Code	Release Date	Revision No	Revision Date	Page No
PL.501	28.06.2018	6	11.02.2026	1/10

PROSPECTIVE CUSTOMER Information	Contact information of prospective or potential customers and records of documents and information pertaining to activities about the services or products that may be offered	3 years after initial contact	Legitimate interest of data controller	Anonymization
SUBSCRIPTION Information	Contact and survey form records of persons establishing contact on digital platforms for the purpose of sending training and seminar notices and marketing content	Throughout the activity, until cancelled by data subject	Explicit consent, legitimate interest of data controller	Destruction
CANDIDATE Information	Contact information of candidates applying to an open position, and information and documents regarding activities carried out to determine the candidate's suitability to the position	Maximum of 5 years or until the data subject cancels subscription	Legitimate interest of data controller	Destruction
EVENT PARTICIPATION Information	Contact information and other records pertaining to satisfaction activities for persons who have attended an event	3 months after event	Legitimate interest of data controller	Destruction
SUPPLIER Information	Contact information of suppliers who sell services to support commercial activities, and documents pertaining to the activities between the parties (administrative, accounting, law)	3 years after initial contact	Direct link to the execution of a contract; legitimate interest of data controller	Anonymization

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

	PERSONAL DATA RETENTION DISPOSAL POLICY				
	Document Code	Release Date	Revision No	Revision Date	Page No
	PL.501	28.06.2018	6	11.02.2026	1/10

SERVICE PROVIDER Information	Contact information of real persons employed in an entity that provides services on contract for supporting an activity; documents and information regarding activities performed to improve quality of service	3 years after end of legal relationship	Direct link to the execution of a contract; legitimate interest of data controller	Anonymization
-------------------------------------	---	---	--	---------------

(*) Notwithstanding the retention periods specified in this table, Personal Data will be retained until the conclusion of a criminal or legal investigation or trial to the extent that they relate to the legal action pursued.

2. The following are considered when determining maximum retention periods according to processing purpose;

- a. With respect to the purpose for processing the data category in question, the generally- accepted period applicable to the data controller's industry;
- b. The duration of the legal relationship with the data subject, when there will be a necessity to process the Personal Data in the data category in question;
- c. The duration, before law or equity, of the legitimate interest derived by the data owner with respect to the purpose for which Personal Data is processed;
- d. The legal duration of risks, costs and liabilities related to the retention of the data category in question depending on its processing purpose;
- e. Whether the retention period is adequate to maintain the data category in accurate and current status;
- f. The duration of the period where the data controller is required to retain Personal Data as part of its legal obligations;
- g. The statute of limitations imposed by the data controller on Personal Data in the data category in question for asserting an associated claim.

3. Periodical Disposal Intervals:

Datassist shall delete, destroy or anonymize Personal Data on the first periodical disposal date following the emergence of the obligation to delete, destroy or anonymize Personal Data. The interval for periodical disposal is six (6) months.

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

	PERSONAL DATA RETENTION DISPOSAL POLICY				
	Document Code	Release Date	Revision No	Revision Date	Page No
	PL.501	28.06.2018	6	11.02.2026	1/10

4. Disposal upon Data Subject Request:

Applications by data subjects in accordance with Article 13 of the Law will be resolved by Datassist within thirty (30) days of being received, and the data subject will be informed of the resolution of the process and its reasons.

If all of the conditions for processing Personal Data have ceased to exist and Personal Data associated with a request have been transferred to third parties, Datassist shall inform the third party of the request and ensure that the required procedures are carried out pursuant to the Regulations.

If some of the conditions for processing Personal Data are still applicable, the data controller may refuse such a request in accordance with Article 13(3) of the Law, and inform the data subject in writing or by electronic means of the refusal and its reason within thirty (30) days. Personal Data marked for disposal will be handled as a priority and the data subject will be notified by appropriate means.

H1. PERSONS INVOLVED IN THE PERSONAL DATA RETENTION AND DISPOSAL PROCESSES

The table below indicates persons involved in the Personal Data retention and disposal processes related to Datassist's activities.

UNIT	TITLE	TASK
Operation	Operation Group Managers (Data Owner)	Acts as Data Owner. Approves data eligibility for purge, ensures compliance with retention rules, and authorizes initiation of deletion requests.
Operation	Payroll Operation Assistant Coordinator	Performs operational follow-up of data destruction activities related to the customer portfolio under their responsibility and ensures necessary coordination.
Operation	Customer Representatives	Performs operational follow-up of data destruction activities related to the customer portfolio under their responsibility and ensures necessary coordination.
Support Team	Support Engineer	Processes data destruction requests submitted via Redmine and moves the relevant customer data to the "To Be Deleted Folder" within the system structure.
System Administration / IT Team	IT Manager	Ensures the continuity of the automated data deletion job and is responsible for managing the technical infrastructure and execution of system-based deletion processes.
Information Security / Quality Management	Information Security Officer	Monitors compliance with the policy and procedures, and performs annual review activities through the KLT.FRM.10 Data Destruction Process Review Report.

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

	PERSONAL DATA RETENTION DISPOSAL POLICY				
	Document Code	Release Date	Revision No	Revision Date	Page No
	PL.501	28.06.2018	6	11.02.2026	1/10

Personal Data retention and disposal activities may be performed with the support of Datassist employees or third parties outside Datassist. Datassist shall have executed Personal Data protection and confidentiality agreements with third parties if their support is obtained in the retention or disposal of Personal Data.

- This section complements the roles defined in Section H by providing step-by-step task responsibilities for the purge process.

H2. Roles and Responsibilities in the Data Destruction (Purge) Process

The following roles and responsibilities define accountability for each step of the personal data destruction (purge) process. This structure ensures that the approval, execution, verification, and completion of the destruction process are properly governed and controlled.

1. Identification of Data to Be Deleted

Responsible: Operation Group Managers (Data Owner)

Responsibility: Identifies data sets and customer records that are eligible for deletion in accordance with applicable legislation and retention periods.

2. Approval of the Deletion Request

Responsible: Operation Group Managers (Data Owner)

Responsibility: Confirms that the data meets the destruction criteria, evaluates compliance with retention obligations, and approves the initiation of the purge process.

3. Initiation of the Deletion Request

Responsible: Operation Group Managers (Data Owner)

Responsibility: Creates the deletion request in the relevant system (e.g., Redmine) and ensures that all required information is accurately provided.

4. Execution of Data Deletion

Responsible: Support Team / IT System Administration Team

Responsibility: Moves the relevant data to the "To Be Deleted Folder" within the system and triggers the technical deletion process.

5. Automated Deletion Processing

Responsible: IT System Administration Team

Responsibility: Ensures the continuous operation of the automated data deletion job and guarantees that data is permanently removed from the system.

* Documents that all company employees can see, but should not be seen by people outside the company, are included in this class.

** Electronic Copy is a document whose output is not controlled.

This document, from the moment it is printed, is for information only unless it is stamped or initialed.

	PERSONAL DATA RETENTION DISPOSAL POLICY				
	Document Code	Release Date	Revision No	Revision Date	Page No
	PL.501	28.06.2018	6	11.02.2026	1/10

6. Verification of Deletion Completion

Responsible: Operation Group Managers (Data Owner)

Responsibility: Reviews system logs to confirm that the deletion process has been successfully completed and formally closes the process.

7. Process Compliance and Audit Activities

Responsible: Information Security / Quality Management

Responsibility: Monitors compliance of the deletion processes with KVKK and internal policies and conducts annual review activities (e.g., KLT.FRM.10 Data Destruction Process Review Report).

8. Executive Oversight

Responsible: Senior Management

Responsibility: Ensures that the destruction process framework is properly defined, adequately resourced, and executed in compliance with regulatory and organizational requirements.

I.Revisions and Changes

The provisions of this Policy may be revised or changed by Datassist when necessary or as required by the applicable legislation. The table below summarizes the revisions and changes to this Policy:
