URGENT ACTION PLAN

This brochure aims to provide guidance on how to act in accordance with the requirements of our business in the event of an EMERGENCY Declaration:

- To determine the conditions and form of emergency declaration
- Determine preparations
- Determining the actions to be taken in all processes

WHAT IS AN EMERGENCY?

Failure to ensure service continuity for 2 days due to infrastructure interruptions in the response time specified in our 'Service Level Agreement' text that we have signed with our External Customers.

Systemic requirements for our service continuity:

- VDI Virtual Desktop Infrastructure, the virtual environment where our work files are located.
- Data Management Platforms Our digital tools: Dakika-Redmine-Logo-Performia-Insightly-Processor.
- Electronic Mail (e-mail) is a form of communication with our internal and external customers in electronic environment.

When an access problem is detected, the notification process is as follows:

1. IT Department informs the Management and Process Managers about the frequency of interruptions that may be encountered. Makes an EMERGENCY Announcement.
2. IT Department goes into martial law with the System Infrastructure Supplier.
3. Based on this information, Process Managers announce the transition of employees to EMERGENCY Working Conditions.
4. Employees fulfil the EMERGENCY Conditions by informing their manager.
5. IT Department announces the exit from the EMERGENCY.
6. All employees return to 'Normal' working conditions.

**Documents that can be seen by all company employees and which should not be seen by outsiders are included in this class.*

EMERGENCY WORKING CONDITIONS

According to the Employee - Laptop matching in the 'EMERGENCY Inventory' in IT Management, the employee is brought together with the laptop allocated to him/her.

Rules for determining the working location:

- Administration is located at the Head office
- Process Managers who have employees reporting to them or who have an operation support role are located in the Head Office
- Employees work at the head office or from home
- (Employees who wish to work outside these rules must obtain approval from their managers)

First Trials

1. Email Access
2. Provision of Files

1. Providing access to our e-mails via Office 365

- Sign in from outlook.office365.com via Google
- Enter the company e-mail address to access
- Log in to your mailbox by entering the password set by the company

2. Requesting the work files available in VDI from the System Administrator

- If possible, specify a shortcut to the file you need
- If not, specify the following respectively
- Name - Surname
- Folders to access by Folder Name/order
- File Name
- Important further distinguishing definitions

Ensuring secure access:

Preparation of laptop computers, installation of necessary programmes

- Forticlient programme (VPN - internal network access programme)
- Citrix programme
- Download citrix reciever from the web page <http://VDI.datassist.com.tr>.
- The programme is installed.
- Access is provided with user and password
- Sentinelone EDR programme

Please send your request to sistem@datassist.com.tr for the installation of programmes on the laptop to be equipped.

**Documents that can be seen by all company employees and which should not be seen by outsiders are included in this class.*

	EMERGENCY PLAN				
	Document Code	Release date	Revision No	Revision Date	Page No
	PLN.04	25.08.2011	6	31.07.2026	1/6

The programme information of the equipped laptop will be updated in the EMERGENCY Inventory by the System Administrator.

Regular Feedback:

After switching to EMERGENCY Working Conditions, at the end of each day, a summary of the work completed during the day is shared with the manager.

HOW SHOULD I COMMUNICATE WITH THE CUSTOMER?

The Customer, who does not receive a response from Datassist, will contact us to be informed about the situation:

- When will his/her work be completed?
- Why is there no response?
- How long will this situation last? etc.

Datassist is at Risk for breach of the 'Service Level Agreement'. Risks carried by Datassist due to failure to respond to the customer for 2 days or access problems reflected on it;

- Penalty sanctions for non-compliance with legal deadlines
- Right to terminate the Service Agreement arising to the Customer
- Damages incurred due to delayed processing
- Loss of credibility and reputation

Let's pay attention to the way of communication:

- Avoid written communication, prefer verbal communication.
- Prefer to communicate via company phone lines.
- Let's be careful when expressing the interruption experienced, let's find the right form

'What' should not be said:

- 'System not working'
- 'I can't make a transaction'
- 'I don't see your request'
- 'I can't access my mail'
- 'I don't know the reason for this outage'

It should be 'how':

'Thank you for informing us about the situation, I will inform our authorities, I will get back to you as soon as possible. Thank you'

- 'Due to an improvement in our infrastructure, we are keeping your information secure'
- 'Due to road infrastructure work, we have secured your information for a while'
- 'In the meantime, we can keep in touch at this number for the continuation of your work'
- 'In the meantime, I will be consolidating your company's data'

**Documents that can be seen by all company employees and which should not be seen by outsiders are included in this class.*

	Document Code	Release date	Revision No	Revision Date	Page No
	PLN.04	25.08.2011	6	31.07.2026	1/6

- 'During this time, I will be doing what you cannot do'
- 'We are implementing our Internal Disclosure Procedure, I will be informing you as soon as possible'

DATASSIST EMERGENCY ACTION PLAN (ADEPsist)

Systemic Stagnation

The continuity of our System Infrastructure is essential for us to provide our services to our Internal or External Customers.

This brochure contains a description of the actions to be taken on an URGENT basis in the event that our Infrastructure is interrupted for a period of time, as we will temporarily interrupt our Service.

In order to receive in-house application support, please direct your requests to sistem@datassist.com.tr e-mail address.
